7. To determine if Centralized processing is required, discuss M21-1 IV.ii.1.H.1.b. Claims Requiring Centralized Processing. In this case the claim remains at the RO because no competent or scientific medical evidence was provided or of record.
8. This case requires subsequent development to the Veteran because the disability is not recognized as a presumptive condition under 38 CFR 3.309(e). Trainee must use the development paragraph *AO – not a recognized condition*, to request scientific or medical evidence showing that the claimed condition is medically associated with dioxin exposure. (IV.ii.1.H.1.h. Action to Take When the Claimed Disability Is Not Recognized Under 38 CFR 3.309(e)) Since this is an FDC claim, III.i.3.B.3.g Additional Language for FDC Development Letters requires the below listed language be added to the letter being sent.

You submitted your claim under the Fully Developed Claim (FDC) Program; however, we need additional information from you. Since your claim is part of the FDC Program, if you submit evidence other than what is requested below, your claim will be excluded from the FDC Program.

Reminder- Once the letter is finalized in VBMS the tracked items will be created, but the letter isn't released until package is sent via Package Manager. The trainee must click on the "Here" hyperlink to go to Package Manager or Click on the Veteran tab to select Package Manager. Once in Package Manager, the letter will show as a draft format. Choose the letter, ensure the recipient info is correct and select Send Package at the top right.

9. Manually create a tracked item:

- Secondary Action Required from the COMPMGT menu with a suspense date corresponding with the pending development (M21-1 I.1.C.3.I)

VBMS will create the following tracked item, once the letter has been finalized:

- AO – not a recognized condition

10. Trainee must enter a note into VBMS: Exam review not yet performed – Veteran has claimed esophageal cancer due to AO exposure, not a recognized condition, submitted no evidence. Developed to the Veteran for medical evidence of association of disease with dioxin exposure. CAPRI enterprise search completed, with a negative response.
