1. Update military service information to include adding the Veteran's service number (1740YXX0). FYI: The Army and AF used service numbers instead of SSNs as personal identifiers until 7/1/1969, so anyone entering service prior to this date will have a SN issued. A VA file number, SSN, and service number will be different. Entering a service number in our database is critical prior to requesting STRs/OMPF from NPRC as these records are stored under this number and **NOT their SSN**. Enter this number in VBMS prior to your PIES request and verify the correct SN on your PIES request. M21-1 III.ii.2.A.4.f. How Records Are Filed at NPRC
 2. Trainee will need to identify the need to order PIES O50 (3101) and establish tracked Item.
Select the following:
Tracked Item
Select Add Tracked Item
Choose a Category – MANLPIESRQST
Choose: PIES Request for O50
Add to List
Add
 3. Trainee must enter a note into VBMS: Exam Review – not yet performed - Pending receipt of STRs. PIES O50 requested for STRs and personnel records. CAPRI enterprise search completed, with a negative response.
-

NOTE: This is NOT a fire related case (M21-1 III.ii.2.F.1.a.). Many of the records NPRC held for Veterans with surnames beginning (alphabetically) with Hubbard to Z, and who were discharged from the Air Force between 9-25-47 and 1-01-64. HEINZ would NOT be included.

NOTE: The Veteran is over 85 years old. In the demo environment, there is no way to add a corporate flash. However, in the live environment, the flash “Priority Processing – Veteran 85 or older” would be entered in SHARE (→ M21-4 Appendix E. Index of Corporate Flashes and Special Issues)

4. Tracked items should be:
 - a. PIES Request for O50 (Under MANLPIESRQST)
 - b. Secondary Action Required (Under COMPMGT)
