Your retired pay may be reduced by the amount of VA compensation awarded. Receipt of the full amount of military retired pay and VA compensation at the same time may result in an overpayment, which may be subject to collection. If you qualify for concurrent receipt of VA compensation and military retired pay, the waiver of retired pay will not apply. If you do not want to waive any retired pay to receive VA compensation, you should check the box in Item 26. Note that if you check the box in Item 26, you will not receive VA compensation, if granted. If you are currently in receipt of VA compensation and you check the box in Item 26, your VA compensation will be terminated, if you are also eligible for military retired pay. IMPORTANT: VA COMPENSATION PAY IS NON-TAXABLE. THEREFORE, VA COMPENSATION PAY MAY BE THE GREATER BENEFIT. ○ 26. Do NOT pay me VA compensation. I do NOT want to receive VA compensation in lieu of retired pay. IMPORTANT INFORMATION ON SEPARATION/SEVERANCE PAY: VA compensation, if granted, may be withheld to recoup any disability severance or separation pay such as involuntary separation pay, voluntary separation pay, or special separation benefit, you receive from your branch of service. In addition, if you receive a Voluntary Separation Incentive (VSI), your VSI payments may be reduced if you are awarded VA compensation. Receipt of VA compensation and VSI at the same time may result in an overpayment of VSI, which may be subject to collection. 27A. However, to be legally entitled to keep your training pay, you must waive VA benefits for the number of days equal to the number of days for which you received training pay. In most instances, it will be to your advantage to waive your VA benefits and keep your training pay. If you waive VA benefits to receive training pay by checking the box in Item 28, VA will retroactively adjust your VA award to withhold benefits equal to the total number of training days waived and at the monthly rate in effect for the fiscal year period for which you received training pay. This action may result in an overpayment of compensation, which may be subject to collection. IMPORTANT: VA COMPENSATION PAY IS NON-TAXABLE. THEREFORE VA COMPENSATION PAY MAY BE THE GREATER BENEFIT. 28. Do NOT pay me VA compensation. I do NOT want to receive VA compensation in lieu of training pay. **Rating Decision November 18, 2018** 

#### INTRODUCTION

The records reflect that you are a Veteran of the Vietnam Era. You served in the Marine Corps from July 07, 1974, to July 09, 1976. You filed an original disability claim that was received on October 14, 2018. Based on a review of the evidence listed below, we have made the following decision(s) on your claim.

#### **DECISION**

- 1. Service connection for tinnitus (claimed as hearing loss) is granted with an evaluation of 10 percent effective October 14, 2018.
- 2. Service connection for hearing loss, right ear is granted with an evaluation of 0 percent effective October 14, 2018.
- 3. Service connection for hearing loss, left ear is denied.

#### **EVIDENCE**

• DD Form 214, Certificate of Release or Discharge from Active Duty received October 29, 2018, for the period July 07, 1974, to July 09, 1976.

Roscoe McDillard TRA-72-7058 Page 2 of 4

- Service Treatment Records, received October 29, 2018, for the period July 07, 1974, to July 09, 1976.
- VA Form 21-526EZ, Application for Disability Compensation and Related Compensation Benefits received October 14, 2018.
- Hearing Loss and Tinnitus Disability Benefits Questionnaire, Baltimore VAMC, conducted November 13, 2018.

#### **REASONS FOR DECISION**

#### 1. Service connection for tinnitus (claimed as hearing loss).

Service connection for tinnitus (claimed as hearing loss) has been established as directly related to military service.

An evaluation of 10 percent is assigned from October 14, 2018.

We have assigned a 10 percent evaluation for your tinnitus based on:

• Recurrent tinnitus

A single evaluation for recurrent tinnitus is assigned whether the sound is perceived in one ear, both ears, or in the head.

This is the highest schedular evaluation allowed under the law for tinnitus.

#### 2. Service connection for hearing loss, right ear.

We have granted your claim for hearing loss, right ear.

The effective date of this grant is October 14, 2018. Service connection has been established from the day VA received your claim. When a claim of service connection is received more than one year after discharge from active duty, the effective date is the date VA received the claim.

Service connection is warranted because your military occupational specialty (MOS) of 5811 - Military Policeman (1 years) is consistent with acoustic trauma and your right hearing loss has been linked to that acoustic trauma.

Your VA examiner opined that it is at least as likely as not that your right ear hearing loss is due to military noise exposure.

Roscoe McDillard TRA-72-7058 Page 3 of 4

VA examination findings show the right ear with 96 percent discrimination. Decibel (dB) loss at the puretone threshold of 500 Hertz (Hz) is 15, at 1000 Hz is 35, at 2000 Hz is 35, at 3000 Hz is 40, and at 4000 Hz is 45. The average decibel loss is 39 in the right ear.

An evaluation of o percent is assigned because your right ear has a speech discrimination of 96 with an average decibel loss of 39. The evaluation for hearing loss is based on objective testing. Higher evaluations are assigned for more severe hearing impairment.

An evaluation of o percent is assigned from October 14, 2018.

#### 3. Service connection for hearing loss, left ear.

Service connection for hearing loss, left ear is denied because your left ear hearing is normal.

Service connection may not be established for disability due to impaired hearing unless the auditory threshold in any of the frequencies 500, 1000, 2000, 3000 or 4000 Hertz is 40 decibels or greater; or the auditory thresholds for at least three of the frequencies 500, 1000, 2000, 3000 or 4000 Hertz are 26 decibels or greater; or speech recognition scores using the Maryland CNC Test are less than 94 percent. (38 CFR 3.385).

There are no audiometric findings in your service treatment records that meet the above requirements for your left ear.

You have in-service acoustic trauma, but service connection for your left ear based on military noise exposure alone cannot be granted. For service connection to be considered there must first be a showing of actual hearing loss in your left ear for VA purposes.

VA examination findings show the left ear with 98 percent discrimination. Decibel (dB) loss at the puretone threshold of 500 Hertz (Hz) is 5, at 1000 Hz is 15, at 2000 Hz is 20, at 3000 Hz is 25, and at 4000 Hz is 20. The average decibel loss is 20 in the left ear.

Your examiner provided an opinion that linked your left ear hearing loss to in-service acoustic trauma, but service connection cannot be granted as your left ear hearing does not meet the above definition of hearing loss for VA purposes. Your VA examination does not show left ear hearing loss for VA purposes.

In this case, the evidence of record does not show current audiometric findings which meet the criteria for a grant of service connection for hearing loss. As you do not currently meet the criteria for hearing loss in your left ear for VA purposes, service connection may not be granted.

Roscoe McDillard TRA-72-7058 Page 4 of 4

In addition, there is no evidence that disabling sensorineural hearing loss manifested itself to a compensable degree within a year of service.
